

Snow removal & parked cars on County Roads

Snow removal is a daunting task, and becomes much more difficult when vehicles and or farm equipment is parked on the shoulders of hard surfaced roads or on gravel road. Jackson County Secondary Roads Department asks that residents not park their vehicles or farm machinery on the gravel roads or shoulders of paved roads during snow removal operations.

If a vehicle is parked on the road or shoulder, Secondary Roads Department will make a request to the Jackson County Sheriff's Office to have the car towed at the owner's expense.

Thank you for your understanding and cooperation.

Clark Schloz, P.E.
Jackson County Engineer
