

As presented on the Iowa County Engineer's Association Service Bureau

Received in the email: The weather prayer by the Third Army Chaplain in 1945, rewritten for secondary roads: "Almighty and most merciful Father, we humbly beseech Thee to restrain these immoderate rains with which we have had to contend. Grant us fair weather for road repair. Graciously harken to us as County Engineers, armed with Thy power, that our maintenance crews may advance from road to road, and crush the corrugations and potholes and establish firm and well-drained roads for all the traveling public."
