FEE SCHEDULE (effective 10/02/2018)

Jackson County GIS department provides public data upon request free of charge where the request doesn't require more than 30 minutes to fulfill and no materials are used. Otherwise, the following fee schedule applies for all requests:

Printed Aerial Images:

- All imagery available online free of charge: www.beacon.schneidercorp.com
- Letter (8 ½ x 11): \$0.50
- Tabloid (11 x 17): \$1.00

Tabular data, custom map design and geographic analysis

- Large scale planimetric map printing: \$2 per square foot
- Direct cost of additional materials or mailing fees (where applicable)
- \$25/hour if request requires more than 30 minutes to prepare

GIS data

- Vector-based data (point, line, polygon) free download from Iowa GIS Data Repository <https://www.iowagisdata.org>
- Aerial photography digital files are available free of charge but with limited extent
- Other shapefiles provided free of charge if provided in the format which we store the data. Where data manipulation or analysis is required, fees are \$25/hour in excess of 30 minutes to reformat data

Reduced Fees

- Jackson County municipalities entitled to 1 large scale print map per year free of charge.
- Government and tax supported entities will be charged at a rate of 50% standard pricing for design/analysis projects in excess of 5 hours labor per project.
- Jackson County reserves the right to waive fees on an individual case by case basis pending approval of the Board of Supervisors.

Jackson County GIS does not accept credit cards.

Please address checks to Jackson County GIS.

Payments can be made in person or mailed to the address above.

THANK YOU!
